

Payment Security & Beyond

THE WORLD'S LARGEST FINTECH GATHERING

ENGAGE – CONNECT – COLLABORATE

After the remarkable success of our inaugural Fintech Week in Singapore, we are thrilled to announce the 2nd Edition of Fintech Week, taking place in Dubai, UAE on 17–18 February 2026. This year, we bring a sharp focus on our new theme — “Payments, Security & Beyond” — reflecting the critical need for secure, seamless, and innovative digital financial ecosystems in today’s rapidly evolving world. With the surge in instant transactions, rising cyber threats, and growing importance of identity and trust in finance, this theme was curated to spotlight the most pressing challenges and cutting-edge advancements at the intersection of payments, cybersecurity, and digital identity. The event will bring together global fintech leaders, payment solution providers, cybersecurity innovators, regulators, banks, digital identity experts, enterprise tech providers and all fintech enthusiasts, all under one roof to explore trends, collaborate, and shape the future of secure finance. Join us in London as we connect minds, drive innovation, and unlock the next wave of fintech transformation.
